

# Learn How FEMM is Redefining Women's Health

November 19, 2018 | 7:00 pm  
Montgomery Auditorium LaFortune Student Center

---

Only 3% of women worldwide can recognize hormonal or abnormal signs of reproductive health, and identify their ovulation—which makes most women uninformed participants in their care.

FEMM revolutionizes how we talk about women's health, and RHRI's standardized medical protocols enable the diagnosis and treatment of ovarian dysfunctions, infertility and menopausal conditions.
