

Thank You

FOR ALL YOUR HELP!

Dear Friend of The World Youth Alliance,

My name is Maria Paula Ramirez. I am a 24 year old lawyer from Colombia. I graduated last year from Universidad de La Sabana. I was an advocacy intern during the first batch of 2020 in New York City.

I arrived at the headquarters full of dreams. Now that my internship has finished, I can say with joy that this experience has surpassed my expectations. Attending the Commissions at the UN and working on its preparation with the team was very enriching. Furthermore, participating in the International Solidarity Forum and in the Manhattan Film Festival was enlightening. I am amazed by the way all the knowledge I've acquired during my career came to be used in the real world with every interaction I made.

After the internship, I'm more motivated to keep spreading the concept of human dignity and the foundational values of WYA among the youth. I am sure that when we all practice the WYA values in our daily life we will see the change in the world that we are looking for.

I'm very grateful for this opportunity but I'm especially grateful for every person that I met during this time. Thank you to every staff member and all my fellow interns. Each one of you has left a mark in my heart that will last forever.

Finally, I would like to thank every friend that supports our mission. Without your help our work wouldn't be possible. Thanks to you, our efforts to make a positive impact in the world are reaching more and more people.

Sincerely,

A handwritten signature in black ink, appearing to read 'MPR', enclosed in a circular scribble.

Maria Paula Ramirez
Bogota, Colombia
