

Thank You

FOR ALL YOUR HELP!

Dear WYA Friend,

My name is Mauricio Toledo, I am 21 years old from Paz de Ariporo, Colombia. I am currently studying law at the University of La Sabana in Bogotá, Colombia.

I met WYA a year ago through an agent from the department of international practices at my University in Bogota. He enlightened me and a group of friends about WYA, its structure in general, the founding ideas or principles of the organization and the impact that it has had on different international organizations regarding the creation of public policies. This discussion filled me with great enthusiasm to be able to be part of an organization like WYA, which has its foundation in the recognition of human dignity from conception. At the end of 2019, I completed the CTP and was selected as an Advocacy Intern for the period from January to June 2020. During this time, I have worked in the advocacy area serving important commissions in the United Nations such as the Commission on Social Development and have elaborated on some of the written statements submitted by WYA to the United Nations. Similarly, I had the opportunity to write opinion articles on the pandemic and its relationship with essential medical services and to become a CTP trainer.

I want to extend my thanks to you for giving me the support of making this incredible and unforgettable experience of working with the World Youth Alliance in New York City. Being an intern at WYA was an enriching experience in every way. Thank you very much for such a unique opportunity.
